64-13

Moved by J. J. Plaus, Seconded by C. Clark:

Whereas it has been brought to the attention of this Council that the Township of Etobicoke is presently requesting the Ontario Municipal Board to approve the rezoning of certain of its lands, being west of Highway 27 and bordering on the limits of the Township of Toronto, from a present industrial use to a commercial use to permit the construction of a shopping complex known as Sherway Shopping Centre, which will be comprised of approximately 1,200.00 square feet of shopping area;

And whereas it would appear from a report by the consultants for the Developer and a further report from the Township of Toronto Planning Board, that eighty percent of the trading area for the proposed Centre will lie in a westerly direction, and could seriously affect the traffic problems on County roads in the area, thereby causing a substantial rise in capital road expenditures to the County of Peel;

Therefore, be it resolved that this County strongly requests the Metropolitan Toronto Planning Board and the Ontario Municipal Board to withhold any approval of this application for rezoning by the Township of Etobicoke until such time as this County has had time to evaluate the impact of the construction of the proposed Shopping Centre on our County roads programme, and that a copy of this resolution be forwarded to the Minister of Municipal Affairs.

Carried by unanimous vote of those present.

A letter from the Town of Port Credit regarding the extent of the proposed construction on Mississauga Road within the town limits that was considered at the last session of Council has been dealt with by the Committee as follows. The Engineer has prepared estimates for any extra work that may be required and has advised the Town that these estimates can be presented to Town Council at their convenience. We recommend that the Engineer be instructed to so present these estimates. if requested, and to outline the provisions of Section 59 of the Highway Improvement Act, the authority under which an agreement for extra work would be made.

7. The request of Council for a report from the Engineer regarding the effects the Sherway Shopping Plaza would have on the traffic on the County Roads has been further considered by the Committee. We recommend that since this matter has been deferred by the Metropolitan Toronto Planning Board pending future meetings between Metropolitan Toronto, Etobicoke Township, Toronto Township, County of Peel and the Ontario Department of Highways regarding the traffic problems that the report from the Engineer be deferred until such time as these meetings have been held and a decision made regarding the design and function of the Queen Elizabeth Way and Highway No. 27 interchange.

8. An intersection study was made of the Derry Road East and 7th Line East intersection as requested by the Township of Toronto. This study was forwarded to the Ontario Department of Transport for consideration. We have now been advised by the Department that traffic control signals are not warranted and we recommend that the Township of Toronto be so advised.

9. An intersection study has been made by the Department of Highways at the intersection of Highway No. 10 and Steeles Avenue as requested by the County. We are in receipt of a letter from the Department advising that traffic control signals are warranted and that they will be installed. We recommend that this be filed.

10. The Committee have considered the matter of naming of County Road No. 7 from the Etobicoke-Toronto Township boundary to Highway No. 9, Airport Road. We recommend that the local municipalities concerned, namely, the Townships of Toronto, Chinguacousy, Toronto Gore, Albion, Caledon and the Village of Caledon East be requested to pass the necessary By-law authorizing this name and further that a sample By-law be sent to the various Municipalities.

11. The Ontario Traffic Conference is to be held in London, Ontario, on April 27, 28 and 29, 1964. We recommend that the Vice-Chairman of the Committee and the Assistant County Engineer be delegated to attend.

12. The Committee have considered an inquiry from a Municipality within the County regarding the possibility of engaging the County Land Purchaser and Appraiser for a short period of time to assist this Municipality in a land acquisition matter. The recommendation of the Committee is that all the Municipalities within the County be advised that the Land Purchaser and Appraiser is available to assist individual Municipalities if so requested, subject to the approval of the Road Committee. The Committee further wish to advise that the Engineering Department is available to the individual Municipalities for advice on Engineering matter if so requested by a Municipality, providing such assistance does not conflict with the duties of the Engineering Department of the County or with the function of the Engineering staff of the Municipality, or with a Consulting Engineer engaged by the Municipality. Any arrangement to provide Engineering assistance to a Municipality is to be subject to the approval of the Road Committee.

13. We recommend approval for payment the accounts listed on the attached pay sheets totalling $86,617.14.

14. The following resolutions have been passed by the Committee awarding tenders and are submitted for the information of Council:

(a) "Resolved that the tender received for Contract: Bituminous Materials—64, the supply and application of bituminous materials, be accepted as per tender submitted by Armstrong Bros. Company Limited of Brampton, at unit prices totalling $74,745.00. This being the lowest tender received, subject to the approval of the Department of Highways."

(e) "Resolved that the tender received for the supply and installation of 8 Grader Tires and 2 Loader Tires be accepted as per tender received from Thompson Tire Limited, Brampton, at unit prices totalling $2,784.09. This being the lowest tender received."

(f) "Resolved that the tender received for the supply and application of Liquid Calcium Chloride be accepted as per tender submitted by Pollard Bros., Harrow, Ontario, at a unit price of $47.50 per Flake Ton Equivalent. This being the lowest tender received, subject to the approval of the Department of Highways."

Chairman and Members of the Road Committee,

Corporation of the County of Peel.

Gentlemen:

In accordance with Clause No. 5 of the March report of the Committee we have considered the question of the sight distances on Britannia Road and have performed an intersection study of Britannia Road and Queen Street in the Town of Streetsville and wish to advise as follows:

1. Britannia Road west of Mullet Creek for a distance of some 1,900 feet has limited sight distances due to the profile of the road. This problem has been increased with the development to the south of Britannia Road and the increase in traffic on Pioneer Drive, Joymar Drive and Theodore Drive. The sight distances to the east from Theodore Drive is approximately 300 feet, from Joymar Drive approximately 350 feet and the sight distance to the west from Pioneer Drive intersection is also approximately 350 feet. These restricted sight distances are below standard, as a sight distance of a minimum of 400 feet is recommended for a 35 M.P.H. speed zone.

We have attempted to determine if this condition has been the cause of any accidents and have been advised by the Chief of Police for the Town of

Streetsville that he is not aware of any accidents in this area attributable to the limited sight distance.

We have estimated that to remedy this situation by grading a portion of the road and restoring the existing surface would require an expenditure of some $30,000.00.

After considering the above noted and observing numerous vehicles execute the necessary turning movements with more caution than is normally shown at intersections of this nature we are of the opinion that these intersections while not constructed to our present day standards do not present a dangerous situation for the travelling public.

We would therefore recommend that any grade changes on Britannia Road be deferred until such time as this road is completely reconstructed and that in the interval "Concealed Intersection" signs be installed to assist the motorists.

11. A complete intersection study has been performed on the Queen Street, Britannia Road intersection. This study has indicated a 15 per cent increase in total traffic since a previous study was performed in July, 1962. The traffic warrants for the installation of traffic control signals are not yet satisfied by the existing traffic volume, pedestrian volume and delays to traffic. We have estimated that should the rate of increase of traffic through this intersection increase at the same rate in the future as in the past that traffic control signals will be warranted by 1966. In the interval, it is our opinion that control signals would be detrimental rather than helpful in the control of vehicles using this intersection.

We would therefore recommend that traffic control signals not be installed and that a future intersection study be made within a period of one year to reassess this matter.

The foregoing is respectfully submitted for the consideration of the Committee.

Yours truly,

R. A. CRUISE, P. Eng.,
County Engineer.

Mr. C. F. Kline,
Chairman, Board of Health,
Peel County Health Unit,
40 David Street,
Brampton, Ont.

Dear Mr. Kline:

Recently you received a letter from the Nursing Staff of Peel County Health Unit stating that we could not accept the change in personnel policies affecting our holiday time.

We feel we must send further information stating our reasons. We realize that some of the Board members may not have a complete understanding of the factors involved.

We hope the enclosed letter will clarify our position.

Sincerely,

(Mrs.) Mary S. Bannerman,
Staff Nurse,
On behalf of the Nursing Staff
Peel County Health Unit.

June 3, 1963

Mrs. Roy Westlake,
Chairman of the Board of Health,
R.R. 2, Malton, Ont.

Re: Annual Vacation

Dear Mrs. Westlake:

The staff nurses of Peel County Health Unit wish to express their appreciation of the fact that, with the implementation of the new vacation policy at the beginning of the year, they were given the option of remaining under the former policy or transferring to the new.

At the same time, however, they wish to express their concern that the two-week vacation will be mandatory for future new employees. In an era when employee benefits tend to increase rather than decrease we regret seeing this reduction in vacation taking place. It seems apparent, also, that the $100.00 annual differential now being given with the two weeks will invariably be absorbed in normal annual increases, so that eventually future employees will be relatively less well off than present ones.

We trust that the vacation policy can be reconsidered in the near future.

Yours sincerely,

(Miss) Daphne Gosling,
on behalf of the Staff Nurses of the
Peel County Health Unit.

Our advisory body, the Registered Nurses' Association, have recommended certain minimum standards of salaries and personnel policies for all nurses. One of their 1963 recommendations states: For each year of service the annual vacation shall be four weeks.

At the time of each nurse's employment with Peel County Health Unit she is requested to sign a contract which provides for 18 days yearly vacation with each year of employment. It has now been suggested that vacation time may be reduced to 10 days. This would seem to be a breach of contract. It is stated that this contract can be broken only on agreement of both employer and employee.

As professional workers we assume a high degree of responsibility. We must be ready to help people make vital decisions. Our work is demanding mentally and physically. Good health is essential for the task. Four weeks vacation is considered a minimum requirement for renewal of body and spirit.

The basic educational requirements for public health nurses are grade 13 plus three years in a recognized training school for nurses plus one year at university for special training in Public Health Nursing, or grade 13 and four-five years in a university school of nursing. A public health nurse's education is then just beginning. She must constantly study to keep up to date with changing times. Much of this additional study is done by the nurse in off-duty hours. She is frequently called upon to attend and address meetings related to her work. She is required to teach specialized courses in the evening or assist at evening clinics.

Nurses compare their working benefits to those of teachers whose training and experience in many instances is less. Salaries and the benefits for teachers are on a higher level. This contributes to dissatisfaction.

Each nurse feels responsible for encouraging young people to consider nursing as a career. Statistics presented in 1962 reveal that there was just one qualified Public Health Nurse for every ten jobs offered in the field of Public Health Nursing in Canada. In order to attract sufficient numbers of well qualified young people to this field the salary level and other personnel policies must compare favorably with those of other professions. Peel County Health Unit would be the only county health unit to provide only two weeks annual vacation for its nurses.

Peel County Health Unit has in the past achieved a reputation for providing good personnel policies. Because of this there has been adequate staff to provide excellent public health nursing services to Peel County. It is our desire to maintain and improve these policies.

APRIL REPORT OF THE JUVENILE AND FAMILY COURT COMMITTEE

To the Warden and Council of the County of Peel.

Your Committee on Juvenile and Family Court begs to report as follows:

1. A meeting of this Committee was held on April 8th, 1964, with the following present: Allan, Berney, Blair. Also present were His Honour Judge H. T. G. Andrews, Mrs. K. Carter and the three Provincial Probation Officers.

2. Judge Andrews pointed out that it appears it will be necessary to have a Constable available for Court days in Brampton. We recommend that Judge Andrews be authorized to engage a Constable for Court for two days per month for the balance of the year 1964.

3. Judge Andrews pointed out that there was need to make local arrangements for a detention home. We recommend that Judge Andrews should consult with the Children's Aid Director and also this problem should be discussed with the County of Halton to see if arrangements could be made to have one detention home service both municipalities.

TO THE WARDEN AND MEMBERS OF THE CORPORATION OF THE COUNTY OF PEEL

Pursuant to the authority and direction of Section 93 (1) of the Assessment Act R.S.O. 1960, your County Assessor begs leave to submit the following report:

This is my nineteenth annual report and the County of Peel now has the second highest assessment and the largest population of all the counties in the Province. The average increase in assessment each year since making my first report has been 12.86 per cent and the increase in population has been 9.19 per cent each year. A summary of assessments and population for each year since 1946 is attached hereto for information only.

For several years now I have recommended that a re-assessment of land values be made and the Town of Streetsville completed a re-assessment of land value in 1963 similar to that made in the Town of Port Credit in 1962. It is therefore necessary to make adjustments to the actual assessments for the proposed equalization schedule. Assessments in the other eight municipalities in the County have, in my opinion, been prepared with enough uniformity that each will have the same factor for equalization purposes.

The total taxable assessment has been increased from 183,210,451 in 1963 to 201,250,249 in 1964 or 9.85 per cent, and the population has increased from 119,819 in 1963 to 131,285 in 1964 or an increase of 9.57 per cent. In addition to the taxable assessment in 1963, grants in lieu of taxes were made by the Federal and Provincial governments or their agencies to the local municipalities on a valuation of 6,548,805. This amount was included for the computation to apportion each municipality's share for county rates in 1964.

The percentage increase of assessment in each municipality in order of greater percentage increase and the amount of increase in dollars is as follows:

Municipality	Percentage Increase Over Previous Year	Dollar Increase Over Previous Year
Twp. of Chinguacousy	30.69	4,222,211
Town of Streetsville	24.33	1,393,905
Town of Brampton	15.75	4,930,336
Twp. of Toronto	5.89	6,469,990
Town of Port Credit	5.16	624,210
Twp. of Caledon	5.03	177,889
Village of Caledon East	4.26	16,864
Twp. of Albion	3.85	121,077
Village of Bolton	3.03	59,371
Twp. of Toronto Gore	1.75	23,945

The increase in Streetsville is mostly due to the re-assessment of land. In all other municipalities it is due to new buildings or additions with minor adjustments in land values.

The new assessment manual prepared by the Department of Municipal Affairs has not yet been issued but is expected to be available by August, 1964. Th Manual is based on the most modern methods of assessment and the Provincial supervisors are being trained in its use and will give some guidance to the assessors if a re-assessment is undertaken by local municipalities. It is expected that in the not too distant future assessors will be licensed by the Department of Municipal Affairs and eventually only assessors who have the necessary qualifications will be issued a license to be appointed as assessors. It is my opinion that the Council should therefore seriously consider appointing an Assessment Commissioner under Section 93a of the Assessment Act and terminate the position of County Assessor. Section 94 has been amended by adding Subsection 2 which reads as follows:

> (2) On the application of the council of a county that has appointed a county assessment commissioner under Section 93a, the minister may order that the provisions of clause A of Sub-section 1 do not apply to such county for such period as may be determined by him and that the provisions of clause B of Subsection 1 apply during such period.

This permits the county to equalize the assessments for a period to allow a newly appointed Assessment Commissioner more than one year in which to re-assess all municipalities in the County on an equal basis.

The following schedules are attached hereto:

Schedule

(a) Summary of assessments and population each year since 1946.

(b) Breakdown of various classes of assessment for each municipality.

(c) Proposed equalization schedule.

I wish to express my sincere appreciation to all officials and members of Council for their kind co-operation and assistance during the past year.

Respectfully submitted this 21st day of May 1964.

JOHN G. HOOPER,
County Assessor.

Re: Contract No. CH5-64

Boston Mills Bridge

Gentlemen:

In accordance with clause No. 14 of the June 1964 report of the Committee, adopted by Council June 8th, 1964, we have considered the above noted matter and wish to advise as follows.

Tenders were received for this contract with the low tender received being submitted by Armstrong Bros. Company Limited, at unit prices totalling $73,604.40. A summary of the tenders received and the estimate prepared by the Engineering Department is attached for the information of the Committee.

An estimate has been prepared on the basis of the Engineering Department acting as a General Contractor and sub-contracting various phases of the construction. The estimate prepared in this manner is $63,000.00. It should be noted that to this a contractor must add the cost of a performance bond, overhead charges and profit. Taking this into consideration we are of the opinion that the low tender received is not excessive.

It is noted that the low tender is approximately $8,000.00 higher than our original estimate for items 3 and 4 combined, these being the items for the excavation and placing of the concrete in the footings. It would appear from the low tender and from the other tenders received, that the contractors anticipate that the construction of these footings is more difficult than we had originally expected.

After consideration of the above noted facts and since it is possible to complete the total project by accepting the low tender for $84,000.00, we would therefore recommend that this contract be awarded to the low bidder.

The foregoing is respectfully submitted for the consideration of the Committee.

Yours truly,

R. A. CRUISE, P Eng.,
County Engineer.

July 7th, 1964

Chairman and Members of the Road Committee,
Corporation of the County of Peel,
1 Wellington Street East,
Brampton, Ontario.

Gentlemen:

The first meeting of the Technical Co-ordinating Committee, formed for the purpose of preparing the County Needs Study, was held on June 30th, 1964.

Those present were: Mr. C. F. Kline, Warden; Mr. R. C. Bulloch, Chairman; Mr. C. I. Greer, Department of Highways Needs Study Engineer; Mr. R. A. Cruise, County Engineer; Mr. R. W. Knight, Assistant County Engineer.

Absent—Mr. R. W. Speck; Mr. J. G. Tillcock, Department of Highways Municipal Engineer.

Mr. Greer outlined the purpose and the method of the Study to the Committee. The purpose of the Study is to compile all the data in regards to estimated construction needs, estimates of other costs of operating the road system and the estimated financial ability of the County to meet their share of the anticipated needs in order for the Department of Highways to supply an adequate level of aid to the County.

The method in which this Study is to be conducted is detailed in a method manual which has been compiled by the Department. Copies of this manual are available for the perusal of Council.

The Study may be conducted by the Engineering Staff of the County or by a consulting engineer engaged by the County, the whole of the cost being subsidized by the Department of Highways. It is the decision of this Committee that the Engineering Staff proceed with that portion of the study which comprises the compiling of all available data as to existing conditions and the estimated cost of future construction, maintenance and administration, as well as the estimated future assessment and funds available for the proposed work.

It was further decided that at such time that all the above data has been compiled and analyzed, the Committee will re-assess the program and decide as to whether the report on the findings will be written by the County Staff or by a consultant engaged for this purpose.

As stated earlier, there is a particular section in the study that deals with assessment. The Committee recommends that the County Assessor be requested to compile this data.

The meeting adjourned to meet again at 10:00 a.m., on August 6th, 1964.

The foregoing is respectfully submitted for the information of the Committee.

Yours truly,

R. W. KNIGHT, P.Eng.,
Secretary.

Whereas a resolution of the County of Peel advocating National Hospital Sweepstakes received a large majority of Municipal Councils' approval in the Province of Ontario, and referred to the Ontario and Federal Government in 1961, on which no action has been forthcoming;

And whereas newspaper and radio publicity indicated the majority of the people of Ontario favour a Hospital Sweepstake;

And whereas the Ontario taxpayer is still required to donate funds for Hospital Construction in addition to their tax contribution;

Therefore be it resolved that the Province of Ontario be requested to study the feasability of issuing Hospital Bonds for purchase by the General Public in denominations of $5.00, bearing interest at current rates, such interest to be accumulated and disbursed quarterly to holders of Bonds drawn in accordance with a formula to be devised, similar to premium bonds now sold in England to the General Public through the Banks and Post Offices.

Re Sherway Plaza

Gentlemen:

In accordance with Clause No. 5 of the July report of the Committee, further information in regards to additional traffic on Dixie Road was requested from the Metro Planning Board.

Existing traffic counts were taken and projected into the future by means of a computer. The year 1972 was taken for the study and the counts were determined for the normal increase of traffic and the total traffic with the plaza included. These counts show that a four lane highway will be required from Highway No. 2 to Highway No. 5. The four lanes would be required in any event if the plaza was constructed or not.

Assuming a steady growth of traffic from 1964 to 1972 four lanes would be required by 1966 or 1967 from the Queen Elizabeth Way to Highway No. 5. Four lanes would be required south of the Queen Elizabeth Way by 1972. The interchange at Dixie Road and the Queen Elizabeth Way has been a conern of all concerned for some time and is presently under study by the Department of Highways. The results of this study are expected in November, 1964.

The largest increase in traffic due to the plaza as determined by the computer would be north of the Queen Elizabeth Way. The increase here would be 130 cars per hour in both directions during the peak period. This additional volume would be accommodated by the proposed four lanes.

The foregoing is respectfully submitted for the consideration of the Committee.

Yours truly,

R. W. KNIGHT, P.Eng.,
County Engineer

C. M. MURRAY, C. F. KLINE,
Chairman Warden

September 8, 1964

To the Chairman and Members of the Finance Committee:

As instructed by County Council at the August session, the following is submitted for consideration by this Committee in connection with implementation of Air Pollution Control as of January 1st, 1965.

This report was prepared after consultation with Mr. W. B. Drowley, P.Eng., Director of the Air Pollution Control Division, Department of Health.

1. By-law 1800 (Air Pollution Control), passed at the July session, will have to be repealed and a new By-law, to be given two readings only, introduced and forwarded to the Department of Health for approval of the Minister of Health before third reading.

2. The Air Pollution Control Department should be started by employing one Senior Inspector as soon as possible. (Duties to commence January 1st, 1965.) This Inspector should have at least Second Class Stationary Engineer's papers. No additional staff should be engaged until after the Senior

Inspector has had an opportunity to assess the situation in the whole County. It is suggested that three employees would be the maximum number of staff in 1965:

1 Senior Inspector
1 Staff Inspector
1 Clerical

3. The following is a suggested salary schedule for the Senior and Staff Inspectors:

Senior Inspector (if Stationary Engineer):

Minimum	Maximum	Annual Increment
$6,000.00	$7,000.00	$250.00

Senior Inspector (if not Stationary Engineer but with experience):

Minimum	Maximum	Annual Increment
$5,500.00	$6,500.00	$250.00

Staff Inspector:

Minimum	Maximum	Annual Increment
$4,900.00	$5,700.00	$200.00

Clerical:

Based on County Clerical Staff Schedule.

4. Car Allowance—Inspectors

Paid the same as Health Unit employees:

$44.00 per month plus 4 cents per mile driven on duty.

5. If a Senior Inspector is employed effective January 1, 1965, it should be understood that he will be willing to attend a training course sponsored by the Department of Health prior to joining the County Staff. This course will likely be held in December and we have the Department's assurance that a vacancy on the course will be held for the Senior Inspector to be appointed.

6. It is suggested that the position of Senior Inspector be advertised in the Globe & Mail. Mr. Drowley will assist in the interviews and hiring of the Senior Inspector if Council so wish.

7. Office Accommodation:

It would appear every effort should be made to locate office accommodation in the County Buildings, or that office space be rented in the vicinity of the County Buildings. Office space can be kept to a minimum as provincial facilities will be available for laboratory tests, etc.

8. Control:

Control of the Air Pollution Control Department should be through the

Clerk-Treasurer's Office to the Finance Committee to County Council. The Department of Health will assist in the initial set-up.

9. Subsidy:

Subsidy will be paid on the same basis as Health Units (Peel County—50 per cent of gross cost). Final details covering subsidy payments are not as yet completed by the Provincial Treasury Department. It is likely that the Town of Port Credit and the Township of Toronto will receive some subsidy for part of the year 1964. As subsidy will have to be applied for through the County, these two municipalities will be contacted as soon as particulars are received from the Department of Health.

Respectfully submitted,

HENRY H. RUTHERFORD,
County Clerk-Treasurer

SEPTEMBER REPORT OF PEEL MEMORIAL HOSPITAL COMMITTEE

To the Warden and Council of Peel County.

Your Committee on Peel Memorial Hospital begs to report as follows:

The regular monthly meeting of the Board of Governors of Peel Memorial Hospital was held on August 20th, 1964, at 8.00 P.M. No members of Council were in attendance owing to the Prime Minister's reception in Toronto attended by the Warden and others.

1. It had previously been reported that a new x-ray unit was necessary and would cost approximately $10,000.00. After the radiologist, Dr. Hall, had examined some mobile x-ray units he recommended a less expensive model as being sufficient, which is $3,500.00 installed. The Board agreed with the recommendation and gave approval to purchase a number 100MA Mobile X-ray Unit.

2. Interest costs on the capital loan are presently $1,400.00 per month, and as soon as contracts are complete a final grant of approximately $150,000.00 should be received which would reduce the interest cost to $500.00 per month. The Hospital capital loan should then be reduced to less than $150,000.00.

3. Accounts payable in the amount of $161,668.93 for current and $17,042.51 for building were approved for payment.

Adopted September 17th, 1964.

To the Warden and Council of the County of Peel:

Gentlemen:

Four members of the Road Committee and the County Engineer attended the annual convention of the Canadian Good Roads Association in Montreal, Quebec, from October 19 to October 22, 1964. The following summary of the proceedings is submitted for the information of Council.

Two sessions were held on Monday afternoon, one on Quality Control in both construction and maintenance, and one on traffic operations outlining traffic problems around the world and the use and recognition of traffic signs.

The formal opening ceremonies were held on Tuesday morning with addresses by the Lieutenant Governor of Quebec, the Mayor of Montreal, and the President of the Association, Hon. Dr. F. W. Rowe, Minister of Highways, Newfoundland. The morning session concluded with a paper on transportation systems around the world by Mr. Wilfred Owen, of Washington, D.C. The afternoon session was again divided in two parts, namely, Transportation Planning and Structures.

Wednesday morning was devoted to the various Provincial Road Builders Associations who outlined the developments, problems and accomplishments in the various provinces. This was followed by a debate on whether more road contracts should specify the end result rather than procedure. The afternoon sessions were entitled Pavement Design and Evaluation, and Municipal Roads and Streets. The session on Municipal Roads was most interesting as two of our Ontario County Engineers took part in a debate entitled: Resolved that Municipal bid openings should be public.

The guest speaker at the Annual Dinner held on Wednesday evening was The Right Honourable L. B. Pearson, Prime Minister of Canada.

Thursday morning the Deputy Ministers of the various Provinces reported on the progress and problems of their own Provincial Highway Authorities. Once again in the afternoon the delegates had the choice of two sessions, either Soils and Materials or, Economics, Finance and Administration.

Your Committee found the Convention most informative and interesting and are pleased to submit this summary of the proceedings for the information of County Council.

Good Roads Committee,
County of Peel.

2. Two offers to purchase were presented at this time by a delegation composed of the following: Mr. Devonshire, Mr. Lane, Mr. E. Frank Leavers, Mr. Les Pope. It was recommended that we consider real estate offers to purchase at this time.

3. The Board of Directors of the South Peel Hospital recognize the importance of a high standard of linen, laundry and supply in the care of the patient, and agree with the necessity of establishing a Central Laundry Service to ensure a high standard of cleanliness and adequacy of supply to hospitals on the periphery of Toronto. It is, therefore, resolved that this hospital agrees to join with other suburban hospitals in the establishment of a jointly owned and operated laundry and agree to enter into a long term contract if and when the proposed Central Laundry Service is established, and the Board approved in principle the establishing of this Laundry, as well as a sum up to but not exceeding $1,000.00 that will be assessed to each of the ten hospitals to finance preliminary work regarding the establishment of this Central Laundry.

4. The Administrator's report of the analysis of hospital services for the month of September was approved.

5. Also present at the special meeting besides the Board were Mr. Devonshire, Mr. Leavers and Mr. Pope, representing Real Estate Companies.

Two sealed envelopes containing agreements to purchase hospital property facing No. 10 Highway were opened by the Chairman.

The first agreement of purchase was presented by Mr. Devonshire on behalf of his clients for approximately 375' frontage on No. 10 Highway and a depth of 175' at a price of $160,000.00.

The second agreement of purchase was presented by Mr. Pope for approximately 375' frontage and 250' depth at a price of $200,000.00.

After a thorough discussion, the offer to purchase as presented by Mr. Devonshire was approved subject to the following changes and the final approval of the Chairman of the Board, Mr. Jackson, Chairman of the Building Committee, Mr. McCarthy, and our solicitor, Mr. Pallett.

The new purchase agreement to be changed to read as follows:

(a) That any expenses that may be incurred by the vendor's engineer regarding the looking after, construction, any enlarged diameter or extension of pipe, and maintenance of the required storm sewers be charged to the purchaser on a pro-rated basis for extra services, etc., that may be required for their needs.

(b) That a $5,000.00 cheque will be deposited with the vendor within 30 days rather than 60 days.

(c) That the purchaser will secure the approval of the vendor before giving a permanent name to the about-to-be-constructed nursing home.

(d) That the purchaser agrees to pay for any necessary survey made by the vendor of the proposed property.

Agreed that, with the above changes made and approved, the Chairman of the Board, Chairman of the Building Committee, and our solicitor be authorized to sign the agreement on behalf of the Hospital.

To the Warden and Council of the County of Peel.

Your Committee on Children's Aid begs to report as follows:

A meeting of the Executive Committee of the Society was held on December 9th, 1964, with the following present: Plaus, Kline, Allan.

1. The Society has now drawn on the full amount of the $50,000.00 grant and will have December accounts to finance.

2. The receipt was noted and discussed of the Report of the Minister Advisory Committee on Child Welfare which has been three years in the making. 3. The Executive is recommending to the Board attendance of staff and the Child Care Committee at the sessions of the Conference on the Child Welfare League of America in Toronto on March 18th, 19th and 20th, 1965. The Annual Children's Aid Societies' Conference will be held in conjunction with it on the day preceding it, March 17th, 1965.

4. The Manager was given authority to purchase equipment not to exceed $125.00.

Received December 7th, 1964.

COUNTY OF PEEL
AUDITOR'S REPORT

Council and Ratepayers,
County of Peel,
Brampton, Ontario

We have examined the accounts of the Corporation of the County of Peel for the year ended December 31, 1964 and submit herewith the following report.

REPORT

CAPITAL AND LOAN FUND

Work in Progress—$2,408.36

Peel County Manor proposed addition	$1,680.00
Court house	334.96
Land for County buildings	192.00
High school addition	201.40
	$2,408.36

Tentative approval has been received from the Ontario Municipal Board for financing an addition to the Peel County Manor. The cost is estimated at approximately $200,000 of which $100,000 is to be provided by a debenture issue and $100,000 from subsidy.

Tentative approval has been received from the Ontario Municipal Board for financing a new court house to cost approximately $1,000,000.

Final approval had been received for the financing by debentures of the purchase of land for the new County building. The agreement for the purchase of this property subsequently became void and the County council passed a by-law in December, 1964, expropriating certain other properties for the site of the new buildings. We are informed that the cost of these properties will be in excess of the $112,000 approved for the financing of the original site and that further approval will be requested when the purchase price has been determined.

Debentures Assumed by Other Municipalities

Schedule 2 shows in detail the debenture debt on high schools assumed by other municipalities.
